

LOOKING FOR CRYSTAL CLEAR SOUND?

WE HAVE THE MISSING PIECE OF YOUR AUDIO PUZZLE!

Hum Exterminator

The Hum X™ filters out unwanted voltage on the ground line that can cause ground loop hum. Simply place the Hum X™ on the end of the power cord of the equipment that has a Ground Loop and plug the Hum X™ into the wall outlet. Suitable for use on any grounded 120V outlet. Maximum recommended current draw: 6 Amps

6-in-1 Cable Tester

- Checks XLR, 1/4" (TS or TRS), 1/8" (TS or TRS), RCA (phono), TT & MIDI cables
- Cable Wiring Display (shows wire and problem)
- Intermittent Detect & Display Grounded Shield Detect
- Installed Cable Testing (check cables in walls)
- Test Tone Generator (+4, -10 & Mic)
- Phantom Power Detect

Hum Eliminator™

Eliminates ground loop hum. Also converts between balanced / unbalanced signals. Available in four versions:
 HE-2: Two channel box with 1/4" Smart Jacks (TS or TRS)
 HE-2-XLR: Two channel box with 1/4" Smart Jacks & XLR
 HE-8: Eight channel single space rack with 1/4" Smart Jacks
 HE-8-XLR: Eight channel single space rack with XLR Jacks

Line Level Shifter®

Increase or decrease signal voltage (-10dBV and +4dBu) without adding noise. Also eliminates ground loop hum & converts balanced and unbalanced signals. Available in four versions:
 LLS-2: Two channel box with 1/4" Smart Jacks (TS or TRS)
 LLS-2-XLR: Two channel box with 1/4" Smart Jacks & XLR
 LLS-8: Eight channel single space rack with 1/4" Smart Jacks
 LLS-8-XLR: Eight channel single space rack with XLR Jacks
